

Tudor Andrei Dumitrascu *AI Architect*

(+40)-761-471-916 | Bucharest, Romania | tudorandrei.dumitrascu@gmail.com |  [Github](#) |  [LinkedIn](#)

SKILLS

AI/ML: LangChain, Pydantic AI, Claude SDK, DSPy, PyTorch, Scikit-Learn, NVIDIA Triton, NLP, CV, DL; **Backend:** Python, FastAPI, NestJS, Litestar, RESTful APIs; **Data:** Pandas, MongoDB, PostgreSQL, Redis, RabbitMQ, SurrealDB; **Frontend:** Typescript, Next.js, React, Remix, TailwindCSS; **Cloud/DevOps:** Docker, AWS, Azure, CI/CD, Prometheus, Grafana, Nix; **Languages:** Romanian, English, German

WORK EXPERIENCE

CTO Mar 2026 — Present
Pythia Sociodynamical Technologies *Bucharest, Romania*

- Setting technical direction and running engineering operations
- Building tooling for AI engineering: eval harnesses, agent infrastructure, developer workflow
- Delivering client AI projects end to end, plus AI consultancy and workshops

CTO Feb 2026 — Present
Flow Copilot *Bucharest, Romania*

- Built Flow Copilot, an AI task-management app for people with ADHD (iOS/Android/web)
- Owned the voice-to-task pipeline end to end: speech transcription, LLM-based task extraction and editing, and long-form audio processing
- Built the Bun/Elysia backend, Convex realtime sync, and Google Calendar integration
- Built the eval harness used to measure AI output quality
- Set up the team's CI/CD, secrets management, and monorepo tooling

Auditor Jan 2026 — Present
Cert Sud *Bucharest, Romania*

- Performing ISO/IEC 42001 (AI management systems) and ISO/IEC 27001 (information security) audits for client organizations
- Assessing AI governance, risk controls, and documentation against certification requirements

AI Engineer Sep 2025 — Mar 2026
CogniSync *Bucharest, Romania*

- Developed core platform feature that ingested complex legal playbooks and templates to create structured rule systems
- Engineered AI system capable of processing and understanding large legal documents, reducing manual review time
- Created document parsing engine that identifies and extracts placeholder items from templates
- Prototyped document-aware Q&A system using Retrieval-Augmented Generation (RAG) for legal queries
- Implemented and compared two RAG approaches: Google Vertex AI integration and custom system using Qdrant
- Applied modern LLM techniques including RAG and prompt engineering for legal domain applications

Co-Founder & CTO Jun 2022 — Sep 2025
Pythia Sociodynamical Technologies *Bucharest, Romania*

- Architected NVIDIA Triton-based ML inference pipeline that processes 1,000+ news articles per second with <100ms latency, reducing infrastructure costs by 35%
- Engineered LLM & DSPy powered data extraction with pipeline with intelligent content hashing, increasing data extraction accuracy by >40% while reducing inference costs
- Built distributed news scraper with Scrapy and RabbitMQ that integrated 41+ sources in one week, processing 500K+ articles daily with 99.5% uptime
- Developed multi-tenant SaaS platform leveraging Next.js and SurrealDB for automated KYC/AML compliance workflows, serving multiple banks and crediting companies
- Designed RESTful API architecture with FastAPI, enabling seamless microservices integration and cross-platform data exchange
- Designed custom algorithms generating plausible trading scenarios from real-world Time-Series financial data
- Developed bias detection algorithms on Time-Series events for financial risk assessment
- Delivered efficient Named Entity Recognition and Sentiment Analysis solutions for financial text processing
- Implemented Graph Database solution using SurrealDB, optimizing complex relationship queries and improving data retrieval performance by 60%

- Deployed comprehensive observability stack with Prometheus and Grafana, maintaining 99.9% system uptime across production environments

IT Administrator

Cert Sud SRL

- Managing IT infrastructure
- Website Designer

Sep 2020 — Sep 2022

Bucharest, Romania

Research & Development Intern

Continental Powertrain Engineering

- CAN Bus programming with Arduino Uno

Jun 2019 — Aug 2019

Timisoara, Romania

EDUCATION

University of Bucharest

M.Sc. Artificial Intelligence

Bucharest, Romania

2020 — 2022

Julius Maximilian University of Würzburg

Erasmus+, Artificial Intelligence

Würzburg, Germany

2021 — 2021

Polytechnics University of Bucharest

B.Eng. Applied Electronics

Bucharest, Romania

2016 — 2020

Åbo Akademi University

Erasmus+, Computer Science

Turku, Finland

2019 — 2020

Academy+Plus

Coding Bootcamp

Bucharest, Romania

Sep 2018 — Jan 2019

Colegiul Național Bilingv "George Coșbuc"

Bacalaurate Diploma

Bucharest, Romania

Sep 2012 — Jul 2016

RESEARCH

Patronizing and Condescending Language Detection, SemEval2022 Shared Task (ACL) ([Link](#)) Nov 2022 — Feb 2023

- Developed advanced BERT-based models for binary classification and multi-label multi-class text classification
- Implemented machine learning algorithms using bag-of-words models for patronizing language detection
- Published research addressing linguistic bias detection in natural language processing

Detecting Early Signs of Pathological Gambling using ML and DL models with dataset chunking, CLEF eRisk 2022 ([Link](#)) Nov 2021 — May 2022

- Applied machine learning and deep learning models with dataset chunking techniques
- Developed early warning systems for pathological gambling behavior detection

PROJECTS

Opticale.AI, Detection and Tracking system using AI

Sep 2019 — Mar 2020

- Developed real-time boat detection and tracking system using computer vision and AI
- Successfully commercialized project through acquisition by maritime autonomous solutions company

CERTIFICATES

ISO/IEC 42001:2023 Internal Auditor

TÜV Thüringen Karpāt (Apr 2026)

ISO/IEC 27001:2022 External Auditor

CERTINSPECT Register (Feb 2023)

[Deep Learning Specialization](#)

DeepLearning.AI (2021)

[Sequence Models](#)

<u>Convolutional Neural Networks</u>	DeepLearning.AI (2021)
<u>Improving Deep Neural Networks</u>	DeepLearning.AI (2020)
<u>Structuring Machine Learning Projects</u>	DeepLearning.AI (2020)
<u>Neural Networks and Deep Learning</u>	DeepLearning.AI (2020)
<u>Introduction to TensorFlow for AI</u>	DeepLearning.AI (2020)
	DeepLearning.AI (2019)

ORGANIZATIONS

Liga Studentilor Electronisti, Volunteer 2016 — 2019 | Bucharest, Romania

AWARDS

Bronze Medal, MobilPRO 17/03/2019

Fifth Place, 2NHack 02/11/2019

INTERESTS

Science-Fiction, Language Learning, Sports, Cardistry, Philosophy
